

JICA Lao PDR Project for Improving the Quality of Health Care Services

Project period : 5 years (Feb 2016~Feb 2021)

Project purpose : To improve the quality of health services in the provincial hospitals, district hospitals, and health centers in the four southern provinces (with maternal and neonatal care as an entry point).

Project counterpart : Ministry of Health

Target areas: Attapeu, Sekong, Saravane and Champassack provinces

Expected outcomes :

1 : Quality of medical care for mothers, newborns and children is improved technically in target provinces;

2 : Management and supervision towards health service quality improvement are strengthened; and

3 : Process of extension of Lao health service quality improvement model is facilitated.
