

Expanding program of diagnostics for Tuberculosis using TB-LAMP in Republic of Zambia (National TB Program Roll-out towards TB free Zambia)

- Zambia needs the improvement of National TB Program (NTP) by a robust diagnosis system
- PURE-TB-LAMP endorsed by WHO can provide the high sensitive and quick tests
- MoH to establish the EQA system supported by the JATA and Eiken
- Active Case Finding by PURE-TB-LAMP available to reach missing TB patients
- Future plan: TICAD-8 in 2022 and SDGs in 2030
